

Ervan Setyatama

COMPUTER SCIENCE UNDERGRADUATE | SOFTWARE ENGINEERING

SUMMARY

I'm currently a Bachelor's degree student studying Computer Science at BINUS University, and I'll be graduating in 2027. I have an interest in Software Engineering, especially in the design and development of web and application projects. I'm always on the lookout for new knowledge in this area so I can make a positive impact on real-world projects and the community. I'm committed to enhancing my professional experience by networking and discovering opportunities that will help me grow my engineering and problem-solving skills.
